

WELCOME AUDIO — FULL TRANSCRIPT

From Burnout to Balance

A written version of the welcome message, for reading, quoting back to yourself, or coming back to anytime

Danielle Jones — Lovely Connections

Burned out mamas, I have one question for you: when is the last time you felt truly energized, empowered, and in control?

When's the last time you bounced out of bed refreshed, tackled your busy day with ease, and still had energy left over for quality time with your family?

If it's been longer than a week, then there is something wrong with the way you're handling work-life balance, and that's what I want to fix for you right here in this presentation.

What if I told you there was a way that you could achieve harmony in both your work and personal life within 30 days...without completely sacrificing your career, without ignoring your family, and without exhausting yourself?

Well if you watch this short presentation all the way to the end, I'm going to show you how you can reduce stress dramatically, be present and engaged for all of your kids memorable moments as they grow up, and double the quality time that you spend with your family each week...while still dominating at your career.

Not only that, but I'm also going to show you how to do all of this in a way that feels simple, effortless, and automatic, so you barely even have to think about it...you can just go right back to enjoying life and motherhood.

AND, I'm going to show you how to tap into an empowered, energized state from the moment you wake up to the moment you fall asleep, and when your head hits the pillow, you'll feel blissful contentment...even if you feel completely drained and can't imagine how you're going to do it all over again tomorrow.

Before we get into all that, let me quickly check in with you so I can see where you're at...does this sound like you?

Does it feel like your world is split in two - and feel “mom guilt” when you're at work because you're not with your family...

...And when you ARE with your family, do you worry because your work isn't getting done?

Do you ever lay awake at night feeling like you're “a bad mom” because you couldn't give your kids the time and attention they needed that day?

Do you wish you could be more engaged and productive at work, but you feel too exhausted and spread too thin to concentrate?

Does it feel like you've completely lost your sense of identity outside of being “Mom”, and you don't even know who you really are anymore?

Do you secretly wish you could just shut the door and lock yourself in the bedroom - even for a few minutes - so you could have just a little time for yourself... and then feel guilty for even thinking that?

AND, most of all, are you scared that you'll stay trapped feeling like an exhausted mom day after day - and the burnout will never end?

Well if any of that sounds like you, then I actually have good news, because none of those things are the real problem.

The real problem is that you don't have a system for achieving work-life harmony as a busy mom.

I'm going to hand you that system, right here in this video, but for right now, just understand this. Once you have it...

You'll have the mental clarity to be fully present and engaged, both at work and with your family.

You'll have renewed passion for your career again, along with clear boundaries.

You'll have energy left over at the end of each day for "You time" - so you can unwind and do what makes you happy.

You'll feel empowered, confident, and completely in control.

AND...you'll crush it as both a rockstar mom and career woman, and your burnout will be the furthest thing from your mind.

The bottom line is this: there's a system that will allow you to achieve work-life harmony as a busy mom, without losing yourself in the process and even if you feel completely overwhelmed right now.

With this system, everything works. Without it, nothing works.

That means everything you've been feeling - all the stress, all the exhaustion, or all the moments you feel like you're failing - none of that is your fault. You just didn't have a system. Now you will.

So before we get into the system and how it works, let's quickly talk about what NOT to do...because if you're like most burned out supermoms, there are 3 huge mistakes you're probably making. And you may not realize it right now, but those mistakes are destroying any chance you have of achieving work-life harmony. And I can virtually guarantee you're making at least ONE of these mistakes, if not all 3.

Let's look at all 3 of these quickly right now.

Mistake #1: Trying to Be Superwoman

The first mistake is trying to be Superwoman.

You think you can somehow do it all - be an amazing mom while also dominating at your career. So you push yourself to the limit, trying to be everywhere at once. (After all, that's what society expects moms to do...right?)

But in the end, this is totally unsustainable. You end up exhausted, overwhelmed, and feeling like you're failing at everything.

Here's the truth - there's a better way to achieve work-life harmony without burning yourself out...and I'll talk about what that looks like in just a minute.

Mistake #2: Only Focusing on Your Family

The second mistake is only focusing on your family.

Now, look - you might be thinking putting your kids first is what a “good mom” does...but neglecting your career and your own identity is a recipe for disaster. Here's why...

When you ignore your professional ambitions, you lose a key part of yourself. And without that outlet, you have no energy left for your family. Resentment builds up.

What you need to do instead is align your career to your values while still dominating...and I'll walk you through how to do that in just a second.

Mistake #3: Trying to Go It Alone

The third mistake is trying to go it alone.

You think it's a sign of strength to handle it all yourself. But struggling in isolation just leaves you anxious and makes everything harder.

What you need to do instead is use an approach that gives you an empowering community and proven tools...without sacrificing your independence.

And that brings me, finally, to the system I mentioned earlier.

Let me walk you through the whole thing right now.

The System

The first step to crushing it as a Mom AND a career woman is to rewire your mind for Supermom beliefs.

You see, most moms hold themselves to unrealistic standards that fuel stress and exhaustion. By transforming your inner dialogue, you free yourself from impossible expectations. Suddenly you have energy again!

When you rewire your mind with the right beliefs and create reasonable goals, you don't burn out. My program helps you reprogram limiting beliefs into empowering ones through our Transformational Supermom Beliefs process.

Once you have an empowered mindset, then the next step is to establish proper boundaries for your work and home.

No more work seeping into family time. No more family thoughts and worries distracting you from doing your job. You strategically protect your time so you don't fall into the trap of overcommitment.

You will know your priorities, and can create your schedule to match. I'll guide you to create healthy boundaries where EVERYONE wins through my Boundary Setting Blueprint.

Then, once that's in place, the next thing you need is stress relief tools.

With simple but effective techniques like meditation, journaling, and strategic breaks, you keep anxiety and overwhelm in check.

I'll equip you with my Stress Relief Toolkit, which are proven self-care tools so you don't try to muscle through alone.

Are you worried about finding the time to actually implement these tools? No problem - we have an accountability system in place to make sure you follow through. Maybe you wonder whether you can really change these habits that are so deeply ingrained? I have that covered too. My Habit Installation Protocols ensures repetition, so that making time for YOU becomes second nature.

And then finally, you need to build an empowering community.

When you surround yourself with other high-achieving, growth-oriented moms, you get the inspiration and support you need to thrive.

This makes crushing it at home AND in your career a permanent solution by giving you a tribe to lean on when you need encouragement or advice. I facilitate this through our private online community and monthly meetups.

Putting It All Together

When everything is said and done...

You'll have an unstoppable mindset that melts the stress from your days

You'll set healthy boundaries so you can give your undivided attention and engagement at work AND at home

You'll have tools to prevent anxiety and overwhelm

You'll have accountability and a powerful community of career-moms just like you for ongoing success

AND...your burnout will be erased, and you'll finally have the energy you've been missing for years.

Once you have this, you'll have a start-to-finish system for going from an exhausted and frustrated mess to an empowered, energetic supermom in as little as the next 8 weeks.

Do you see how powerful this is? Like I said, everything you've been feeling - stress, exhaustion, mom guilt - none of that is your fault. You just didn't have a system.

But now that you know about this, you owe it to yourself and your family to start using this system to achieve work-life harmony and feel blissfully in control starting TODAY.

So now you have a choice...

You can keep on dragging through each day, never having enough time or energy and dealing with constant overwhelm and anxiety...

OR...if you want to have energy again, be present with your kids, tackle each day at work with passion and fulfillment, and finally get control of your life back...then here's what I have for you.

I've set aside some time in the next 24-48 hours to speak with you personally about how you can apply this system to dominate at work AND at home starting today.

Here's how it works: we'll get on Zoom for about 45 minutes. You can tell me everything you're dealing with and everything that's not working. On this call, we'll create a game plan for you to DELETE the burnout from your life, and be present at work and at home faster than you thought possible.

And if you want my help implementing that game plan so you start seeing progress right away, we can discuss how to make that happen. If not, that's fine, too. Either way, my goal is to show you the exact steps to take to thrive as a supermom while dominating your career...without fully sacrificing either.

Click the button under this video. You'll be taken to a very short application so I can learn more about you, and then to a calendar page where you can choose an appointment time that works for you. We'll meet on Zoom at the time you chose for your free Breakthrough Session.

And by the way, this is not for everyone. I have two very strict requirements you **MUST** meet in order to be eligible for this free session:

Two Requirements for the Free Breakthrough Session

One, you must be a career-oriented mom who is struggling to juggle the demands of work and family, and you're overwhelmed and burnt out. If that's not you, please exit this page now.

Two, you must be serious about thriving as a Supermom while crushing it at work, and be willing to invest what it takes to make that happen. I've helped stressed out mamas just like you achieve success in their career AND at home, but it takes an investment in yourself to make that happen. If you're not willing to do that, then I can't help you.

But if you **ARE** a busy career mom, and you are overwhelmed with juggling the demands from your work and your family, AND you're serious about having renewed energy so you can dominate in **BOTH** your work life and personal life, and you're willing to invest what it takes to make that happen, then click the button under this video and schedule your **FREE** Breakthrough Session now.

Just a few short weeks from now, you could be laughing and playing with your kids, feeling excited for your future, and knowing that you really **CAN** have it all, and that you are becoming the empowered career woman and Supermom you were always meant to be.

Don't wait. Book that call now.

I'm Danielle Jones, and let's talk soon.
